Technical and Environmental clauses for transport

CLAUSES OF THE STANDARD CONTRACT		
1	The transport company must have a permit for the transport of non dangerous waste. Please send it us at info@phoenix-plus.be	
2	The vehicle must at all times have the technical control permit.	
3	The walls of the bucket or normal container must be leakage proof.	
4	The interior walls of the bucket or normal container have to be cleaned before loading and after unloading.	
5	If necessary, the bucket container must be equipped with a plastic covering or net (for merchandise in bulk).	
6	The driver must be equipped with protective clothing while loading and unloading.	
7	In case of vertical loading, the driver must be equipped with a harnass and an ad hoc fall protection device, before climbing onto the containers.	

Procedure in case of problems (accident, fire)		
1	Immediately contact Phoenix at +32 10 47 65 30 (secretary) during office hours or at +32 475 93 53 36 (J.F. Delvenne) after office hours.
